

The Federal Communications Commission

Dear The Federal Communications Commission,

I am a senior citizen on a fixed income and am seeing that income being eaten away bit by bit by increases in house insurance, medicare deductions from Social Security, gasoline prices, utilities, etc., etc., etc.

I use my wireless phone for safety and security only. I don't want to lose these benefits so that big businesses can pay less than their fair share.

I do not want to pay more for my telephone service! I urge you to reject a flat fee proposal that would change how contributions are made to the Universal Service Fund. I am concerned that this proposal could make my current service, the very cheapest I could find, unaffordable.

I urge you to reject the proposal to move the USF collection system to a flat-fee.

Keep the USF Fair!

Sincerely,

Carolyn Albert
